

KERBSIDE COLLECTION SERVICE OVERVIEW

As part of Port Pirie Regional Council's waste management strategy, food waste recycling was introduced to all residents in 2024. In conjunction with the established three-bin kerbside recycling collection service introduced in 2013, the improved kerbside collection service now consists of:

- 140L **RED** lid bin – **alternate fortnightly** collection
- 240L **YELLOW** lid bin – **alternate fortnightly** collection
- 240L **GREEN** lid bin – **weekly** collection

Please refer to Council's [Kerbside Collection Calendar](#) for collection day details.

Collection Service

Kerbside collection enquiries and feedback, including missed collections, damaged bins and conduct and courtesy reports, should be directed to:

Cleanaway – 8427 8231

New/Replacement Bins

In April 2013 Council provided each residential property with a red and yellow bin. New properties developed after this date will be supplied with these bins by arrangement with council.

All **RED** and **YELLOW** bins are required to be left at the property if you relocate or sell your home.

GREEN bins can be purchased from the Port Pirie Waste Transfer Station and remain the property of the buyer.

If any of these bins become missing or stolen, new bins can be purchased from Council's Waste Transfer Station. Please refer to Council's [Fees and Charges](#) for this cost.

Excess Domestic Waste

The disposal of domestic waste that exceeds the standard kerbside collection service will be the responsibility of the resident.

Please refer to Council's [Fees and Charges](#) for this cost.

Kerbside Collection Do's

To ensure your bins are emptied on collection day you should:

- Place bins **out by 6am** on day of pick up and bring bins in within 24 hours of collection
- Face each bin toward the road with **wheels pointing toward your house**
- Place the correct items in the correct bin
- Place bins at least 50cm apart and 1 metre away from parked cars, trees, stobie poles and letter boxes (refer to diagram)

Kerbside Collection Don'ts

To ensure your bins are emptied on collection day you should not:

- Overfill or pack bins too tight, ensure lid can close
- Contaminate bin with materials that should not be placed in that particular bin
- Fill your bin with materials exceeding 70kg total weight
- Place your bin out after collection time
- Place your bin in front of vacant land
- Place a red or yellow bin out which does not have the Council logo
- Place the incorrect bin out for collection
- Place a bin out for collection belonging to the incorrect property

A warning sticker will be placed on non-compliant bins to identify reason for non collection to enable you to rectify the problem for next collection.

Council reserves the right to cease your Kerbside collection service for continued incidents of non-compliance.
