Ensure you know how to:

- protect your personal information and privacy
- recognise scam or hoax emails and websites
- safely pay bills and bank online
- protect your business

SCAMwatch is a website run by the Australian Competition and Consumer Commission (ACCC).

SCAMwatch provides information to consumers and small businesses about how to recognise, avoid and report scams.

AFP

AUSTRALIAN FEDERAL POLICE

The AFP is dedicated to preventing all Australians from becoming victims of online crime by empowering them to use technology safely and responsibly. This website contains some valuable information sheets that are easy to understand and cover topics such as security on the Internet, protecting your children online, password protection and much more.

Be Connected

Every Australian online.

Available training, easy to follow self-teach videos, worksheets and other training content

Everyone can benefit from being online and connected no matter where they live, how old they are or where their interests lie.
