______________________________________
CHAIRPERSON
Notes from the S41 TLAP Consultative Committee: 3/7/17

- Rob Thomas gave a presentation on lead in air, lead deposition, legacy lead and the impact on children’s blood lead levels.

- The Committee indicated a broad understanding of the work of TLAP and the role of Council in community dust management and soil contamination and a request was made for the EHC to provide a high level overview of the operations of their operations by EHC staff at the next S41 TLAP Consultative Meeting to further inform the Committee on the issue of lead in the community.

- Best practice guidelines for land development and remediation (taking account of lead contamination) could be developed for Port Pirie and a Demonstration Site making use of the guidelines would be useful way to share information with the community. This could include Demonstration Home incorporating “lead safe” practices and design – or a virtual home accessible “on line” rather than an actual construction.

- A Phytoremediation Trial is being explored by TLAP. Such a trial should provide both scientific and public relations outcomes. This initiative could be a further promoted as a positive for the community under the “Port Pirie. Come See Change” campaign.

- Ekistics has been engaged by TLAP to inform improved policies and procedures for land use management in and around Port Pirie. Similarly, customised soil remediation strategies are being developed by JBS&G. Recommendations will be further discussed by the Committee.

Dear Mikell

Re: Invitation to attend Section 41 TLAP Consultative Committee Meeting

Port Pirie Regional Council in conjunction with TLAP have formed a Section 41 Committee. The Committee Terms of Reference state that the Committee has been established to fulfil the following functions:

- To act as a communication channel between TLAP and Council.
- To recommend an annual works plan which outlines what each organisation intends to undertake, both collectively and individually, to meet the objectives of TLAP, for the consideration of Council for inclusion in its annual budget.
- To review the progress made against the annual works plan on a quarterly basis.
- To do anything necessary, expedient or incidental to performing or discharging the functions of the Committee as listed herein or to achieving its objectives.

To further inform the Committee on the issue of lead in the community, at the Meeting on 3 June 2017 a request was made for the Environmental Health Centre staff to provide a high level overview of their operations to the next Section 41 TLAP Consultative Committee Meeting.

The Committee looks forward to hearing about the operations of the Environmental Health Centre and would like to invite yourself and any other members of your staff that you feel are able to provide information to the Committee. The Meeting is scheduled to be held on Monday 4 September 2017 at 4pm in the Council Chamber. It is requested that you confirm your attendance or non attendance at this meeting to Rosalie on the contact details listed above at your earliest convenience.

Yours Sincerely,

[Signature]

Cr. Alan Zubrinich
Chairperson, TLAP Consultative Committee
Hi Rosalie

I have received today PPRC invitation to attend Section 41 TLAP Consultative Meeting scheduled for 4th Sept – I have advised Dianah Mieglich that I am unable to attend meeting due to personal commitments – Dianah has advised she will reschedule my attendance to the next meeting.

Please extend my apologies to Councillor Alan Zubrinich & Committee, I look forward to attending the next scheduled meeting.

Ta Mikell
